Washington Zero-Emission Incentive Program (WAZIP)

Modernize your fleet of medium- and heavy- duty trucks and off-road equipment to save money, reduce operating costs and make the switch to zero-emission vehicles.

WAZIP provides point-of-sale vouchers for eligible zero-emission commercial vehicles and equipment, so you save money upfront.

What is WAZIP?

The Washington Zero-Emission Incentive Program (WAZIP) is Washington's first statewide voucher incentive program for zero-emission commercial vehicles and equipment.

Whether you operate a single vehicle or manage a larger fleet, WAZIP makes it easier to afford to invest in zero-emission trucks and equipment through point-of-sale incentives.

How can WAZIP help me?

- Discounts at time of the purchase, without waiting for rebates
- Expert support to help you understand incentives, requirements, and next steps
- Long-term savings from reduced fuel and maintenance costs

Zero-emission equipment for you also means a better environment for all of us.

How does it work?

1. Connect with WAZIP experts to receive personal guidance as they walk you through eligibility, incentives, and planning.
2. Choose an approved dealership that is offering eligible zero-emission vehicles or equipment.
3. Work with your chosen Dealer as they apply for your voucher at the time of your purchase.
4. Put your vehicle to work by saving on fuel and maintenance costs with zero-emission technology.
5. Get ongoing support from WAZIP experts who remain available to help as your needs evolve.
